OUR EXPERTISE

Full service list	40
-------------------	----

Media Powerhouse provides expertly tailored **Audio Visual**, **Creative Print**, **Event & Scenic** installations for both permanent and temporary spaces; merging cutting-edge technology with creative innovation, maximising impact and minimising hassle.

Who we are

Media Powerhouse has a rich history rooted in creativity and technical expertise. With a foundation in audio-visual system integration and event services, we have built a solid reputation for delivering high-quality solutions across multiple industries.

As client needs grew, we expanded to include large-format print, staging, and scenic construction, strengthening our ability to provide complete solutions. By continually embracing new technologies, we ensure our services remain at the forefront of the industry.

Our team of over 75 specialists combines technical precision with creative problem-solving, delivering solutions that are both practical and visually impactful. This skilled workforce is a cornerstone of our sustained success and high client retention rates.

Whether you need a single service or a fully integrated solution, we make it easier to manage every stage of your project. With one team handling everything, you get a smooth process, clear communication, and results delivered on time and on budget.

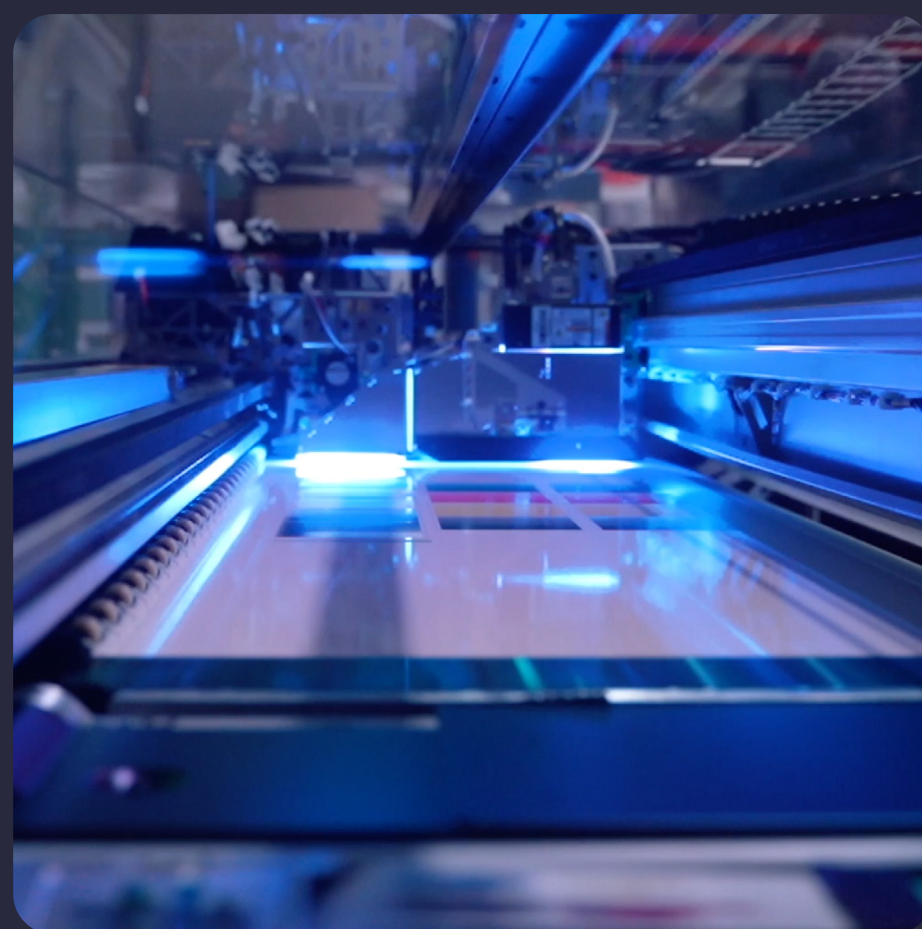

The power of one

We've grown by bringing together established businesses with specialist expertise, giving you access to a wider range of expert services without the complexity of managing multiple suppliers.

Audio Visual will always be at the core of what we do, but our expanded services give you the flexibility to choose exactly what you need, whether it's a single service or a complete solution.

The Creative Place joined Media Powerhouse in 2019, adding over 30 years of experience in large-format print. Forming our **Creative Print** division, they continue to deliver high-quality signage, exhibition graphics, wall vinyl, point-of-sale displays, and event branding for its own clients while playing a key role in our expanded services.

More recently, The Chiswick Scenery Company became part of our **Event & Scenic** division and now operates fully under the Media Powerhouse name. Its team has a long-standing reputation for set design, fabrication, and scenic artistry, strengthening our ability to deliver staging and scenic solutions alongside technical AV production for events and exhibitions.

Delivering results

TRACK RECORD AND RESOURCES

Backed by years of expertise and an extensive range of audio, video, and lighting equipment at our disposal, we are prepared for any project.

PROVEN PRODUCTION FACILITIES

Our print production house boasts both industry-standard and the latest technology in large format printing, while our purpose-built workshop enables well-coordinated construction with a variety of materials, including timber, metal, and fabric.

COLLECTIVE EXPERTS

Our team of talented professionals are each specialists in their respective fields, bringing dedication to everything we do. Their combined power and knowledge ensure high-quality results and innovative solutions tailored to your needs.

Your trusted partner

MASTER IN MULTIPLE FIELDS

With dedicated specialists in AV, Print, and Scenic, we deliver the same high standards you'd expect from a single-focus provider, all packaged together to suit your business needs.

SAVE BIG, STRESS LESS

Say goodbye to supplier chaos and logistical headaches. With us it's one contact, one invoice, and one big-time saving through our multifaceted packages.

INTEGRATION END-TO-END

We seamlessly connect any combination of AV services, creative print projects, and construction elements for a streamlined approach, from conceptualisation through to execution, and after care should it be required.

We're proud to support...

Agency-focused

We understand the unique challenges experience agencies face when managing client events. Our events division is dedicated to supporting agencies in delivering outstanding events for their end clients. We offer a full range of services, including AV, scenic design, and large format print, all tailored to meet your clients' specific needs.

We handle all technical and creative aspects of event production, allowing you to focus on client relationships. Our flexible packages can be customised for any event, from activations to awards ceremonies. By choosing a single supplier for all these services, you not only streamline the process but also reduce the environmental impact, aligning with green initiatives and sustainability goals.

With extensive experience in working with agencies, we are a trusted partner in delivering all manner of events for agencies' premium clients. Our proven track record and commitment to quality ensure that your clients' events are executed flawlessly, allowing you to confidently deliver events that impress.

CREATIVE EVENT SPECIALISTS

LARMAC

Our events and broadcasts need the best AV equipment, the right skills and most importantly the best team to seamlessly fit into our production workflows and **with Media Powerhouse we get all three.**

They help us create something truly amazing and help us transform our in-person events and online broadcasts into memorable experiences.

- CISCO

Seamless solutions

A complete 360° provider

Transforming spaces into places ...

We provide full system integration for permanent installations, offering seamless functionality and continuous support, encompassing design, installation, commissioning, and maintenance.

Our operations span various sectors, including corporate meeting rooms, broadcast studios, immersive museum experiences, and retail video wall displays, ensuring high-quality audio-visual systems tailored to each setting.

Our audio visual solutions are custom designed to enhance each unique environment, delivering reliable and high-quality systems for every type of venue.

DESIGN AND ENGINEERING

Our team delivers comprehensive design services, including schematics and plans for various projects, leveraging the latest AVoIP protocols.

INSTALLATION AND SPECIALISATION

We offer full installation, integration, and programming services, specialising in network-based control systems by top brands like Crestron and Extron.

AFTERCARE AND CLIENT SUPPORT

We ensure long-term reliability and client satisfaction through detailed aftercare, including on-call support and tailored service level agreements.

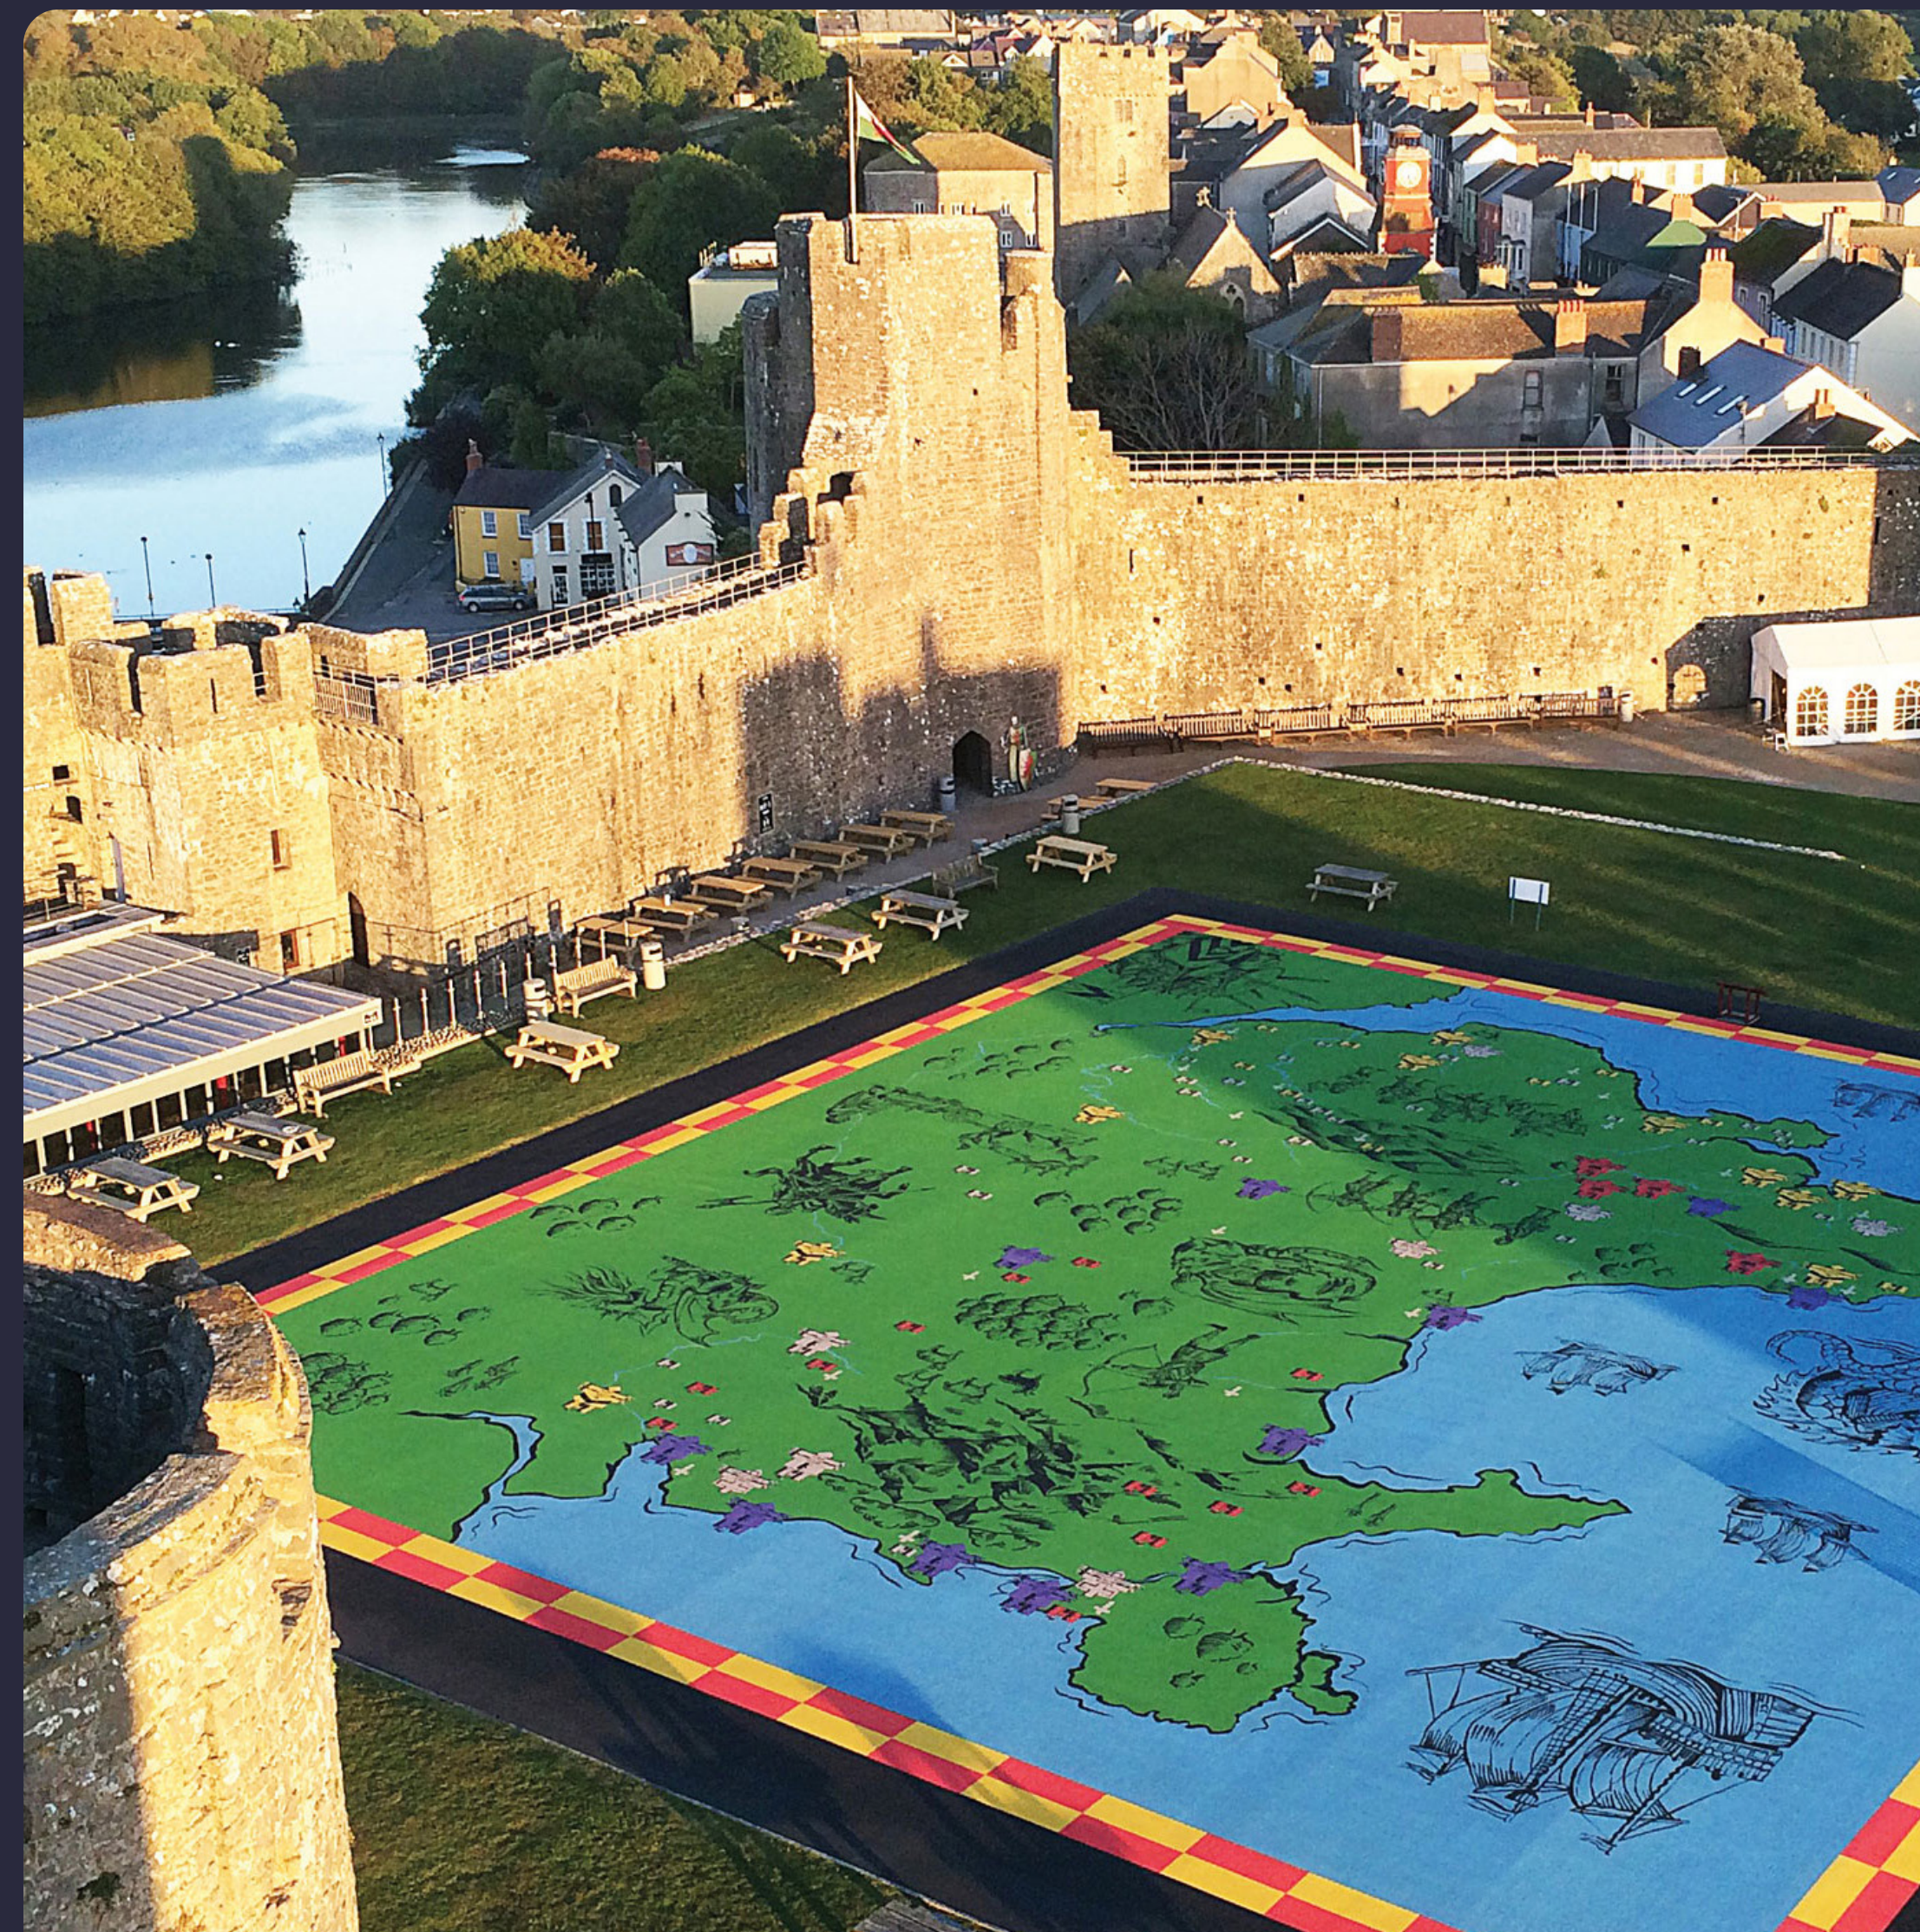

Where creativity meets grand scale

Whether enhancing corporate settings, creating dynamic displays for museums, or crafting engaging retail experiences, our products are designed to captivate and add functional aesthetics to any area.

Our printed products enhance our AV and Event & Scenic installations, such as branded screen surrounds and tailored backdrops, adding a visual dimension that integrates smoothly with the audio visual experience and amplifies brand activation.

We print in-house, guaranteeing exceptional quality and efficient delivery. Our state-of-the-art print room, equipped with the latest technology utilising eco-conscious inks, ensures faster, sustainable production without compromising on the high standards of print quality.

CREATIVE CONCEPTS AT SCALE

Specialists in delivering vibrant, large format print and signage solutions for businesses in all sectors.

FLEXIBLE DESIGN SUPPORT

Whether your artwork is ready or you're seeking expert guidance to refine your visual strategy, our team is here to support your project and help you achieve the best results within your budget.

VERSATILE MATERIAL EXPERTISE

Our capabilities extend across a vast array of materials, including card, metal, plastic, and fabric. We adapt our printing to accommodate everything you need, from window graphics to architectural wrapping, ensuring each project aligns with your creative vision.

Event excellence every time

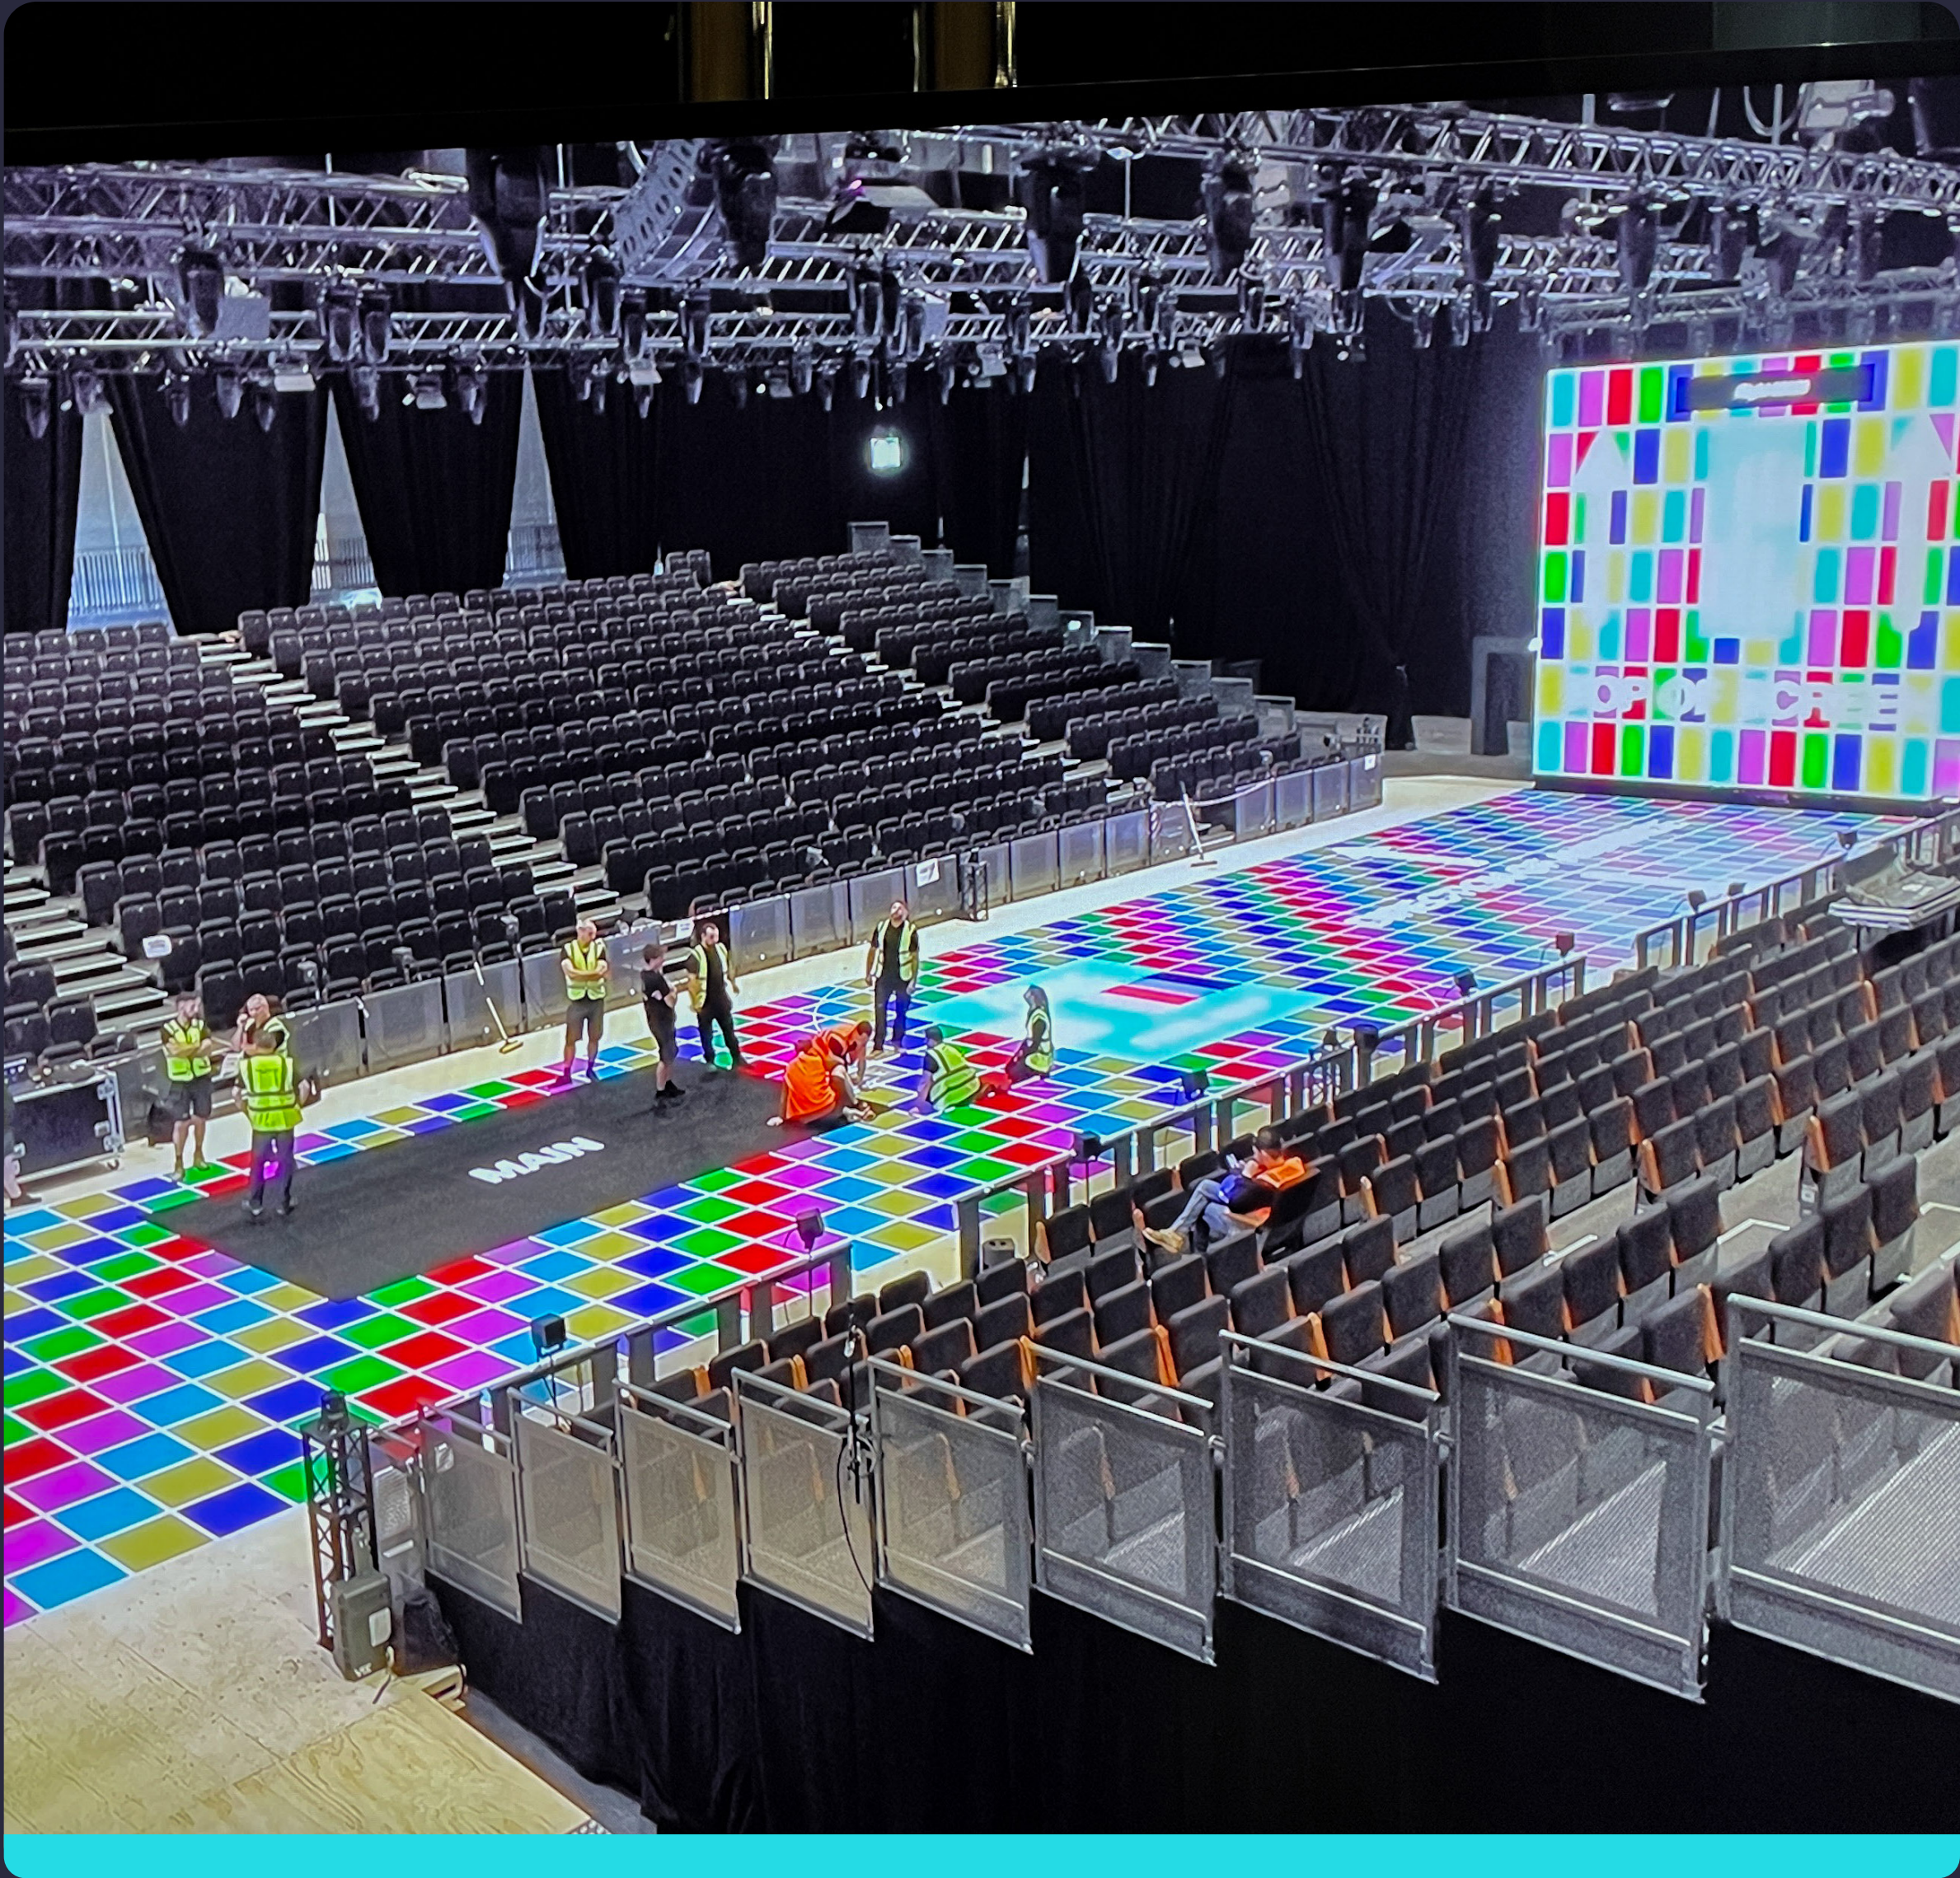

...

We deliver exceptional experiences using advanced audiovisual technology and exquisite scenic design, creating unique environments for every event, from corporate functions to immersive exhibitions.

Our tailored approach begins with a collaborative consultation to deeply understand your vision, ensuring every aspect of the event is meticulously planned and flawlessly executed.

Our team of experts harnesses the power of cutting-edge visuals, lighting, superior audio systems, and creative staging construction to bring each moment to life with stunning visual impact and precision, making every event a success.

PROJECT MANAGEMENT AND CONVENIENCE

We offer complete end-to-end project management combining any combination of our AV, print, and scenery construction services, streamlining the process with a single project manager and one comprehensive invoice.

TECHNICAL EXPERTISE AND RESOURCES

Our team is equipped with an extensive inventory and expertise in video, audio, lighting, staging, and rigging, enabling us to handle events of any size.

ADAPTABILITY AND CREATIVITY

We operate in various venues and can easily adapt to any space, with a workshop led by industry veterans, turning creative visions into tangible realities.

I was blown away when I walked in this morning. Love it, love it, love it!

Thanks to all the team who designed and installed over the weekend.

– BBC

Explore our work

Sky Campus

Business sector
Corporate

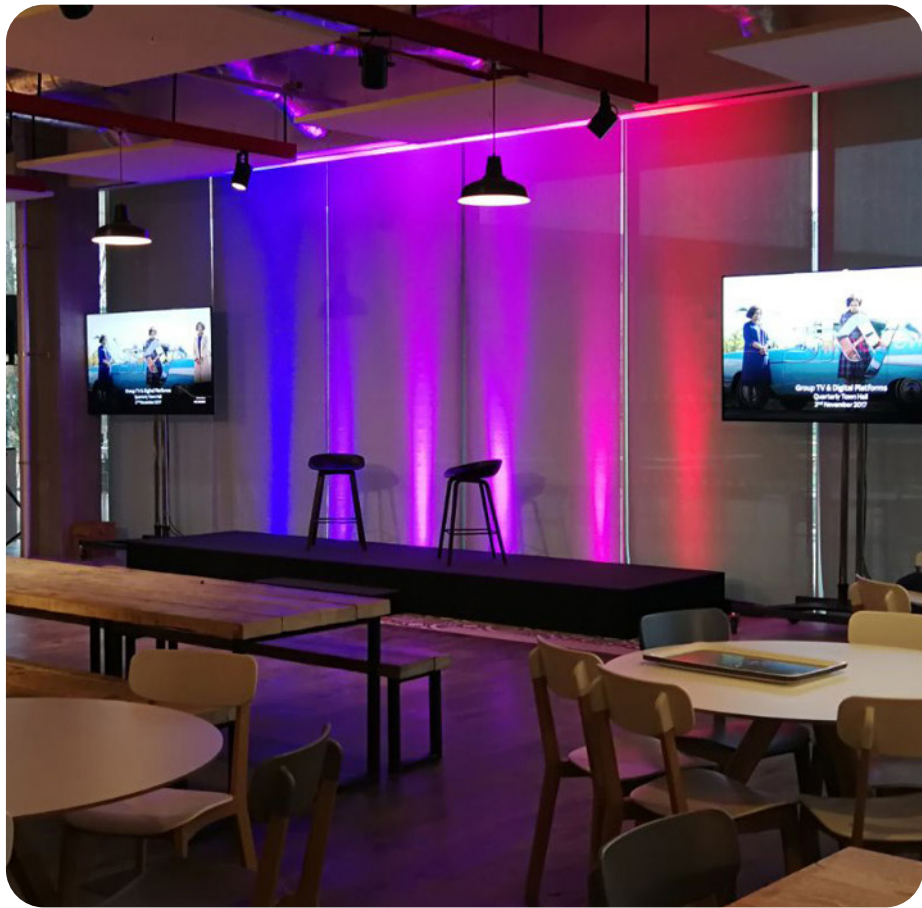

Location
Osterley, London

Project length
12 months

Sky are one of our longest standing clients, so we were delighted to play our part in the development and construction of the impressive Sky Central campus in Osterley, London. Designed to serve approximately 2,500 employees, this project, concluded within an ambitious four-month timeframe, exemplifies our ability to deliver state-of-the-art AV systems tailored to the diverse needs of large, high profile, corporate environments.

Our approach involved the strategic deployment of 180 Samsung and LG displays, ranging from 32” to 86” plus a striking 120” Silicon Core LED screen in the largest meeting room. The integration of advanced connectivity solutions such as AMX Hydra ports and Crestron HDMI auto switchers across multiple meeting spaces ensured seamless user experiences. Additionally, video conferencing was addressed with Polycom GS500 VC systems and superior audio capabilities via Qsys DSP.

[Back to all case studies](#)

The project also extended to specialised areas, including monitoring centres and disaster recovery rooms, showcasing our ability to cater to complex and critical infrastructure needs. Beyond indoor solutions, Media Powerhouse brings the magic of cinema outdoors every summer, setting up a series of outdoor screens across the campus for Sky Cinema, creating engaging and enjoyable experiences for Sky employees.

With ongoing responsibilities like maintaining the Omnivex signage system, Media Powerhouse continues to support Sky, emphasising our role not just as a service provider, but as a long-term strategic partner, demonstrating our capability to execute large-scale projects efficiently, ensuring high-quality AV solutions and support that adapts to the dynamic needs of multinational corporations like Sky.

News UK

Business sector
Radio

Location
London

Project length
12 months

News UK, a leading radio and digital services company, sought to upgrade their studios to a fully integrated, customisable video and audio broadcasting environment. The project required sophisticated interior fitouts to accommodate modern broadcasting needs for stations including Virgin Radio, talkSPORT.

The project presented complex challenges, demanding meticulous coordination with the principal contractor, to deliver a high-quality finish that aligned with the technical requirements of a premier broadcasting studio.

We designed and installed advanced LED and LCD video technology within this acoustically sensitive setting, where custom-cut acoustic panels, covered in high-quality Camira fabrics, were strategically placed to optimise sound quality and brand-centric visual appeal.

[< Back to all case studies](#)

Key to the studio's functionality were the innovative lighting solutions and control systems, enabling dynamic broadcasting capabilities. Electric branded roller blinds and diverse LED setups provided adaptable lighting, crucial for both broadcast quality and studio ambiance.

This collaboration resulted in a ultramodern broadcasting environment that enhanced the experience for both presenters and listeners of the News UK's various stations. Media Powerhouse continues to support News UK, ensuring the staff are well-equipped to use the studio's advanced features and maintaining the high standards set by this collaboration.

Just Eat

Business sector
Corporate

Location
Europe, Canada

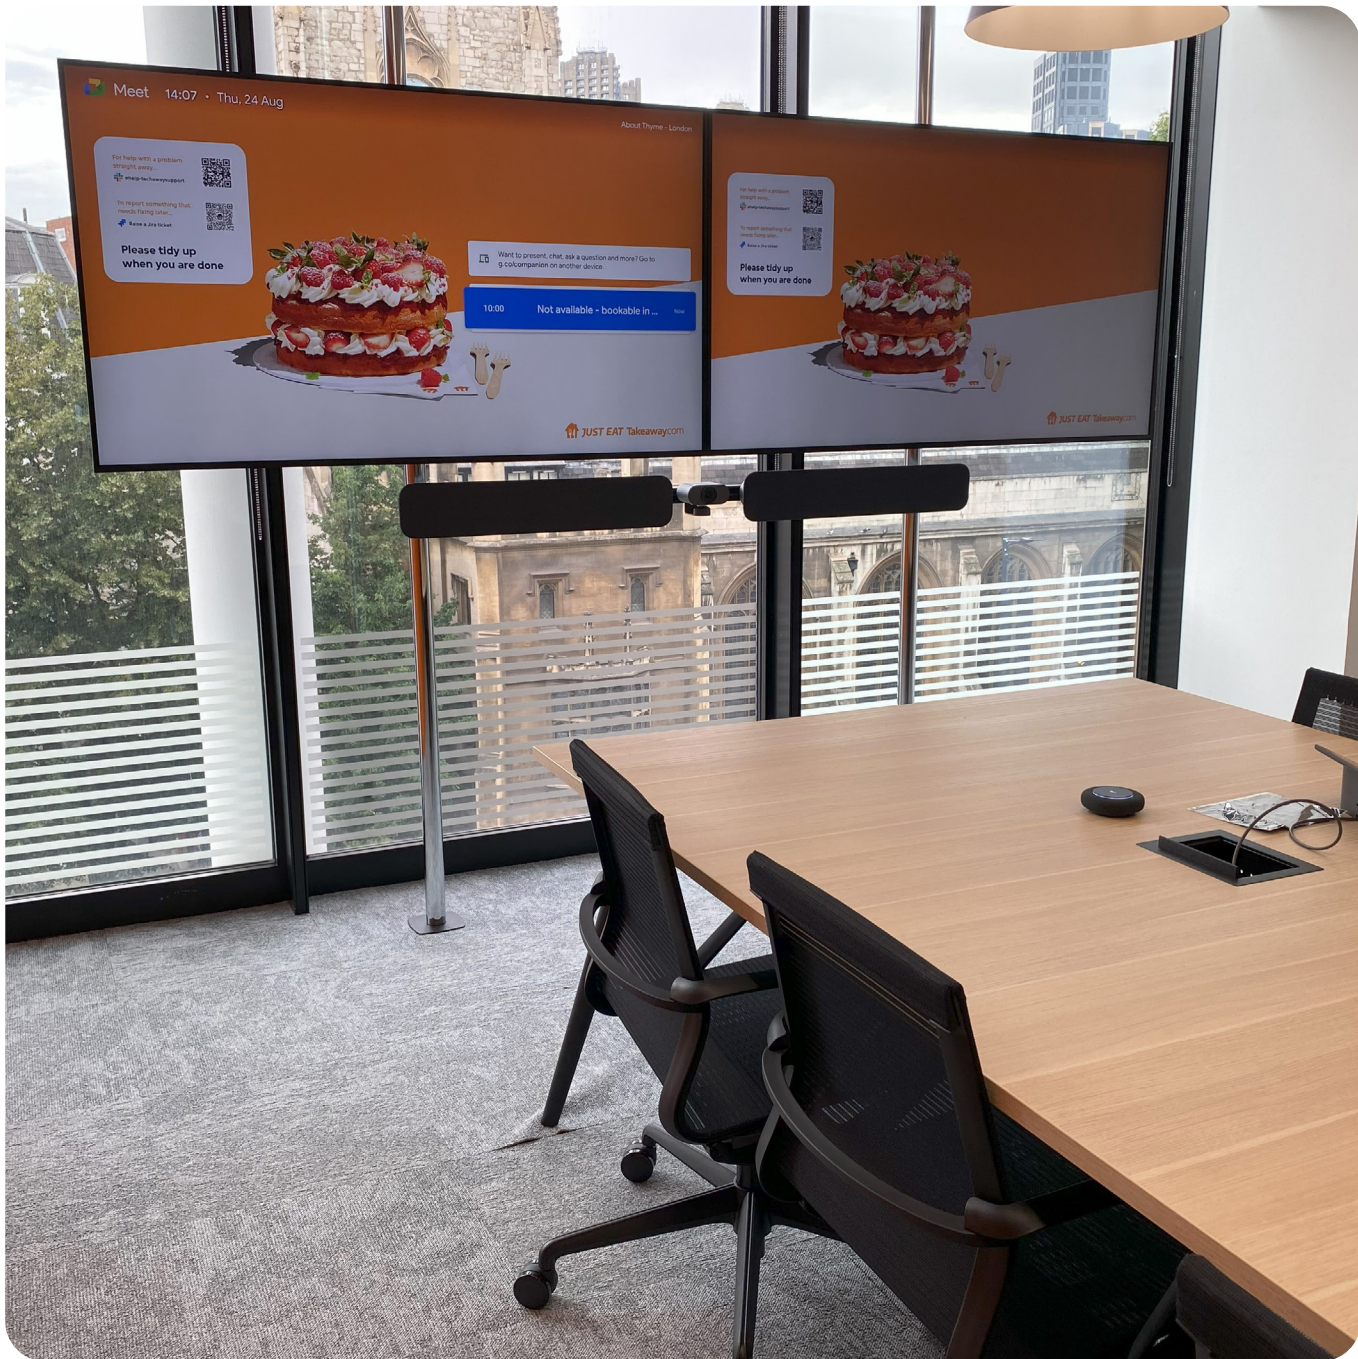

Project length
12 months

We partnered with Just Eat Takeaway in a dynamic expansion across Europe and Canada. Our mandate was to design, coordinate, and implement over 400 advanced AV systems in 12 offices spanning 10 countries, including major cities like London, Amsterdam, Dublin and Toronto.

This project involved rigorous standard-setting and extensive coordination to ensure seamless integration within each diverse office environment. Dubbed the “Playbook,” our standardisation guide became the blueprint for ensuring that each office’s design accommodated the sophisticated AV setups required, from perfectly positioned large format displays to intricately planned cable management systems.

Media Powerhouse continues to support Just Eat Takeaway, ensuring that their AV technology scales with their growth.

< [Back to all case studies](#)

Our solutions featured the Google Meet Series One kits, customised Crestron NVX AV-over-IP video routing, and Dante/AES67 audio setups, enhancing the functionality of meeting and event spaces.

Additionally, we deployed digital signage and a building-wide music distribution system, contributing to a vibrant and engaging workplace for Just Eat employees.

Space Zone

Business sector
Museum

Location
Northampton

Project length
6 months

We took charge of designing and installing the audio visual systems for the Space Zone exhibition. Collaborating closely with the museum and exhibition design team throughout the RIBA design process and construction, their goal was to create a cost-effective scheme without compromising quality, catering to a gallery with an anticipated lifecycle of over a decade.

The exhibition presented challenges, notably integrating durable technology within budget constraints and tailoring the experience to effectively engage visitors. Our solutions included integrated touchscreen interactive exhibits and a comprehensive show control system that automated gallery operations, ensuring equipment longevity and alignment with the museum's operational hours.

[Back to all case studies](#)

Our collaboration with the museum’s interpretation team and software developers enabled us to design an experience that resonates with the target audience, making the Space Zone not only immersive but also educational. This is part of our broader effort to inspire young people in the Northeast to pursue careers in the STEM fields.

Our involvement goes beyond installation, offering ongoing after-sales support and remote management to ensure the exhibition continues to function flawlessly and captivate visitors. This project stands as a testament to our ability to merge innovative AV technology with educational goals, encouraging a lasting interest in science and technology.

Silverstone

Business sector
Leisure

Location
Silverstone

Project length
12 months

Nestled within the confines of the historic Silverstone racetrack, this 4,000m² visitor attraction sits within the last remaining Second World War Wellington Bomber hangar. A vast canvas like this provides the perfect setting to immerse visitors in the adrenaline-fueled world of racing history and technological evolution.

We collaborated with principle fit out contractors Elmwood Projects, to transform the hangar into a vibrant and interactive exhibition space. The enormity of the venue necessitated a comprehensive graphic solution encompassing over 2,500m² of print and experience graphics. This included crafting internal and external wayfinding signage crucial for guiding visitors through the marvels of the exhibition and around the Silverstone site.

[Back to all case studies](#)

The project required precision in colour management to authentically replicate historical imagery, presented with vivid clarity. Achieving this meant meticulous sample print testing, ensuring material and process selection upheld the highest quality and garnered the desired results.

The Silverstone Museum project is a testament to Media Powerhouse's print production house, and our ability to blend historical significance with modern design, delivering an immersive experience that vividly brings the legacy of motorsport to life for all visitors.

Bosch

Business sector
Corporate

Location
Alexandra Palace

Project length
3 weeks

This project was centred around creating a standout exhibition space for Bosch eBikes at Alexandra Palace.

The stand arrived in modular parts from Bosch’s head office in Germany, and required both assembly and integration of added elements to become event-ready. These included installing additional wooden support structures, integrating a LED strapline glowing feature incorporating the Bosch logo, and setting up a graphic back wall.

Completed over three weeks, our meticulous planning and effective problem-solving enabled us to deliver a visually captivating and structurally sound stand. The successful completion of the Bosch stand exceeded client expectations, reinforcing Media Powerhouse’s reputation for delivering quality results under pressure, and leading to a number of ongoing projects at Bosch’s UK HQ in Denham.

< [Back to all case studies](#)

Yonex

Business sector
Sports

Location
Birmingham

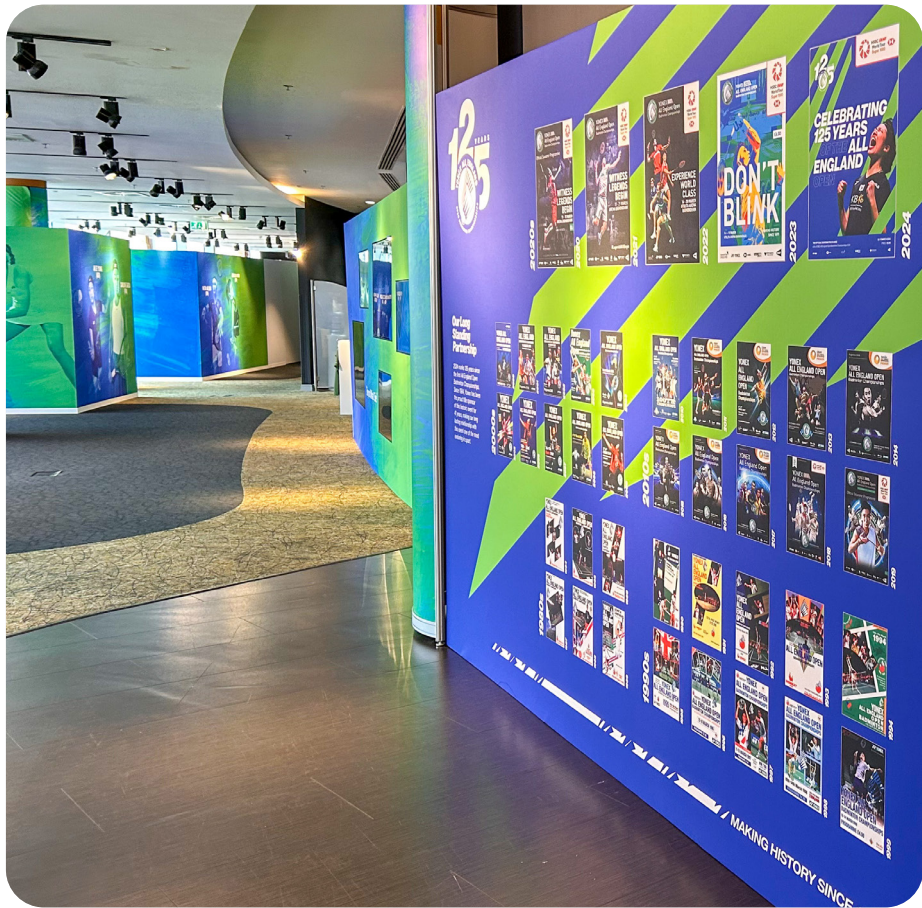

Project length
5 days

We partnered with GR8 Events and their client Yonex to create an experiential environment at the All England Badminton Championships, aiming to highlight Yonex’s sponsorship and launch their latest product lines.

The project, valued at £50k and completed in just five days at NIA Birmingham, showcased the collaborative efforts of our print and scenic divisions.

Key challenges included tight timelines, logistical complexities of transporting equipment to the top floor, and the secure display of high-value items like Martina Navratilova’s Wimbledon racquet.

Each display was designed and constructed by our workshop, then expertly finished with complementing printed designs, ensuring a cohesive and striking presentation.

Utilising our large format digitally printed canvases, the exhibition areas were designed to be immersive and brand-centric. High-quality graphic reproduction on PVC-free substrates ensured vibrant and consistent visuals, while a unique 2-way vision lenticular effect added a dynamic element to the display.

Activations

What sets us apart from other suppliers is our proven success in combining each of our in-house capabilities, integrating scenic design, AV technology, and creative print to deliver impactful activations.

Our AV solutions are designed to capture attention and amplify your message. Using high-definition LED walls and dynamic digital signage, we deliver stunning visuals that engage audiences and enhance storytelling. Whether sharing key statistics or brand messages, the precision and clarity of our AV displays create a powerful connection with viewers.

Our scenic team creates eye-catching physical structures that engage the public and withstand high interaction. Meanwhile, our print services ensure branded graphics deliver clear and powerful communication.

Each component works together to create an activation that captures attention and delivers your message effectively.

Corporate events

We understand that corporate events are pivotal for businesses to engage effectively with their teams, stakeholders, and clients. Our project managers handle every detail with precision, whether your event is live, online or a hybrid of the two, we'll facilitate seamless communication that promotes attendee engagement.

Our approach integrates professional AV technology, ensuring every presentation is delivered with clarity, with creative staging and print materials that are tailored to enhance the event's professional atmosphere and support corporate identity.

Global clients and companies with dispersed workforces take advantage of our hybrid event capabilities, which feature seamless integration across platforms like MS Teams, Google, and Zoom. We ensure all participants, whether remote or on-site, experience broadcast-quality production through expert synchronisation from our Master Control Room.

Whether it's a large conference, company-wide town hall, or an intimate keynote experience, we are equipped to handle any event with our complete suite of services.

Award shows

We specialise in making award ceremonies memorable and meaningful. Our expertise ensure every event is both visually stunning and impeccably managed, reflecting the significance of the occasion.

Our project managers work directly with clients from start to finish, tailoring each element to their specific needs, ensuring a seamless integration of audio, visuals, lighting, staging and printed services, all expertly managed in-house to deliver excellence across every aspect of the ceremony.

Our longstanding collaborations with notable production agencies like Haymarket, H2 and Cheerful Twentyfirst enhance our ability to deliver increasingly impressive events each year, as showcased in annual engagements like the EFL Awards and the Campaign Experience Awards. Our commitment to nurturing these relationships and consistently delivering exceptional and memorable award ceremonies has earned us a reputation for excellence in the events industry.

Exhibition stands

We deliver engaging and effective exhibition and trade show spaces, integrating the services of our in house AV, print, and scenic divisions. Our approach ensures every aspect of the booth is meticulously planned and executed to achieve optimal results for our clients.

We start by understanding each client's unique needs and vision. Our scenic division offers both modular stand options and completely bespoke installations, all constructed in our own workshop. Our print production house provides high-quality graphics, using large format digitally printed canvases and techniques to ensure consistent visuals.

We prioritise environmentally friendly substrates to meet aesthetic and sustainability standards. Our AV team adds advanced technology, from digital signage and touchscreens to audio-visual setups, creating interactive environments that effectively communicate our clients' messages.

Partnering with us eliminates the confusion of dealing with multiple suppliers. Our unified departments ensure quicker turnarounds without compromising quality, while our combined production processes, deliveries, and load-ins reduce waste, road miles and install times.

Broadcast production

We excel in delivering exceptional AV support for live broadcast productions, ensuring every show is visually captivating and flawlessly executed. Our expertise is focused on video and display solutions that cater to the unique demands of each production.

Our services include video distribution, projection and LED walls, all tailored to meet the specific requirements of each show. Our commitment to the quality broadcast television demands, guarantees a stunning visual experience every time.

We successfully support notable productions such as QI, Never Mind the Buzzcocks, Pointless, and various political party broadcast events. Our proven track record in the industry and our dedication to delivering innovative and reliable solutions have established us as a trusted partner for leading production companies and broadcasters.

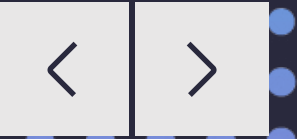

It's an awesome experience working with your team, the guys **exceeded expectations** and helped to make the whole experience for everyone involved a pleasure.

The Media Powerhouse team came in at the last minute and **accommodated every request and more**, in a friendly and collaborative way.
